

CREATIVE PROCESS

We've all heard about creative processes before, but have you ever wondered what they actually entail? Read on to find out more!

STEP 1

Brainstorm

Brainstorming is a great way to think through ideas, but not all brainstorms work. Learn what makes them effective!

STEP 2

Research

If you want to know how to do something, just research it and find out what others have done before you. Just make sure to test everything out first!

STEP 3

Have Fun Creating

Creativity is the ability to create something out of something. It is being able to think inside and outside the box and do things creatively with what we have learned.

STEP 4

Launch

You have finished your work and have been working hard at it for some time now. You have worked tirelessly to get where you are today. Now what? Do you just sit back and relax? You launch!

If you want to succeed in anything, then you need to be persistent. There will be times when you may feel discouraged or even depressed. However, you need to remember that no matter what happens, you cannot quit.
